

## *Sagrado Divino*

TRESS.Taller de Grabado, Lima, Peru announces the publication of a collaborative artist's book, *Sagrado Divino*. The book explores the human ability to adapt to a constantly changing world through what is considered sacred and divine. The artists created prints about what is meaningful, what elevates and makes humans spiritual and thinking beings.

The artist's book includes four, double-sided, original prints by four artists, realized using a variety of printmaking techniques and printed on Rives BFK paper. Book design, book binding and project design were a collaboration with Kathleen O'Connell. The project *Sagrado Divino* began in July 2019 and was completed in September 2019.
